

Grow your business with Shelfgram[™]

Field Reps

Spend more time selling

Our crowdsourced audits provide full market coverage by complimenting the reach of the field sales team. The team is enabled with a centralized portal to access resources and collaborate with management on retail execution.

Gain +20% more selling time by automating photo capture, tagging, and reporting

Sales

Tell a better sell-in story

Level-up your PowerPoint decks with real examples of in-store conditions. Store photos lend authenticity to a sales story and can help support a strong and credible business case to make it easier for the retailer to say 'yes'.

Develop strategic, trust-based relationship with buyers for long term growth

Category Management

Stay a step ahead at the shelf

Check assortment, pricing, shelving, merchandising, and more across thousands of stores from your laptop. Leverage our built-in analytics suite to identify new trends to unlock category growth.

Real time visibility to store level execution to identify issues & opportunities to pivot in an agile way leading to market share & topline gains.

Marketing

See what your shoppers see

Competitive intelligence is now at your fingertips in an unprecedented way. Browse cross-category insights, go back in time, or peek into another market to get a complete view of your business.

Enhanced retail visibility and summary reports to enable agile decision making

TRUSTED BY INDUSTRY LEADERS
